

Re-numbering of post-Coxe manuscripts at New College

Since a new catalogue of the New College manuscripts has been commissioned and will include post-medieval, it was thought prudent to look carefully at the items allocated a manuscript number after Coxe's catalogue was published in 1852 (from MS345 onwards) as some were clearly printed, separated from another collection, photographic or even just typescript.

Therefore, some items have now been relocated into other collections and the remaining volumes re-numbered where necessary. The following lists reflect the changes.
